Dear Sir,

You are aware that in this educationally advanced District, there is only one College to cater to the needs of the growing number of students. I have known several instances where students have not been able to secure admission into the B. A. Class anywhere. There was a talk B. A. and B. T. Classes would be opened this year in the Government College here, but it was Tellicherry that got the III year class. Now with the relaxation of University regulations the Government ought not to find much difficulty in opening III year class in the College here. I request you to take up the matter with Mr. Chettiar. Let us hope that the class will be opened by 31st July 1947.

The struggle for entry into the B.Com. and B. Sc. Classes is very keen and hundreds of students are disappointed. There is only one College in the west Coast coaching up B.Com. students. I would therefore suggest that in the Government College here, B. Com. classes be opened next year.

Thanking you.

Yours sincerely

Sir,

Sub:- Government College, Mangalore - Raising to First Grade.

Ref:- Govt. Memo.No.57876-1/47-A ~~EH~~ Edn. dated 5-8-47.

I have the honour to submit herewith proposals for raising the Government college, Mangalore to First Grade in 1948-49.

2. Both in 1944 and 1945 representations were made by the Public of Mangalore to raise the college to first grade, but the proposal was not accepted by Government vide Government Memo.No. 26041 C.3 Edn. dated 7-7-44 and No.51045 C/45-2 Edn. dated 6-12-45. It is desirable that there should be a non-demominational First Grade college in Mangalore. The Government College, Mangalore is the only second grade Government College in the province and in the interest of future needs, I recommend that it should be raised to First Grade. In the begining, Group (i) Mathematics and Group IV (b) Economics and ~~xxxxxx~~ History and B.Com courses may be opened. Forty students are expected to be admitted into each of these courses. The approximate fee income in 1948-49 will be Rs.22,050/- and in 1949-50, Rs.44,100/-. The Languages to be offered under Part II for the B.A. Courses will be Kannada, Malayalam and Sanskrit and for B.Com Hindi.

3. Accommodation - I suggest that the High School attached to the college be abolished and the Secondary Training Section transferred to the Government Training School Mangalore. This will provide necessary accommodation for the new classes. The closure of the High school will not cause any inconvenience to the students as there are other High Schools in the Town where they can secure admission.

4. The following staff will be required

1948-49.

1 Lecturer in English.
1 Lecturer in Mathematics.
1 Asst. Lecturer in Economics and History.(As the Principal is a History man, only Asst.Lecturer's post is recommended)
1 Lecturer in B.Com.
4 Assistant Lecturers (Kannada, Malayalam, Sanskrit and Hindi)
2 Part time lecturers (B.com. subjects)
1 Lower Division Clerk.
2 Peons.

1949-50.

1 Lecturer in English.
1 Lecturer in History.
1 Asst.Lecturer in Mathematics.
1 Asst.Lecturer in B.Com.

4) Equipment. Non recurring a sum of Rs.3000/- for books and Rs.5000/- towards the purchase of furniture will be required. In future years a recurring expenditure of Rs.1000/- (Rs.500/- under contingencies and Rs.500/- towards library) will be required.

5) The Financial effect of the proposal will be as follows:-

Explanatory Note.

From 1944 representations have been made to Government by the

public of Mangalore to raise the second grade college, Mangalore, to the first grade. For various reasons the request could not be complied with. The Director of Public Instruction has now submitted a proposal to raise the college (now the only Government second grade college) to I Grade from the year 1948-49. The High School Department now attached to the college is to be abolished and the secondary training section transferred to the Government Training school, Mangalore; and the space thus released is to be utilised for accommodating the college classes. The abolition of the High School Department will not inconvenience the students, as there are other High schools in the town. In the beginning it is proposed to open group I Mathematics, Group II B Economics and History and B.Com. courses. The proposal will result in a net saving to the Government. H.M.(Edn.) H.M.(P.H.) and H.M. Fin.) have minuted as follows:-

"This may be sent to H.M.Public Health for his opinion and then put up to me" T.S.A./16-12.

"There are sufficient number of High schools in Mangalore and in other centres of South Kanara. The demand for raising the Govt. College to First Grade has been made since a long time and if this demand is met it will satisfy the people. I, therefore, entirely approve the proposal to close down the High school section of the Government College and open the B.A. and B.Com. courses. The proposal may go forward as a Part II Scheme for 1948-49.

H.M.(P.H.)

"May go in as a Part II Scheme"

.S.A/17-12-47 (H.M.Edn.)

"Tellicherry was raised into Ist Grade only in 1947. Mangalore is already well served with a Ist Grade college for Men and another for Women. The need for converting Government College is not very urgent. May be deferred"

B.G.R./19-12. (H.m. Fin.)

In view of the fact that there is no extra expenditure, may be considered in Part II. In the meantime I will enquire from Assembly members from South Canara.

T.S.A./20-12-47
H.M.(Edn.)

"I don't agree that there won't be any extra expenditure. Without B.Sc. classes, the college won't be complete. The next demand will be that. This is only the thin end of the wedge.

May be considered as Part II. My recommendation above stands.

B.G.R./26-12.
H.M(Finance)

This Department support the proposal and recommend that provisionn may be included in the Budget Estimate for 1948-49 as shown in the summary at the top.

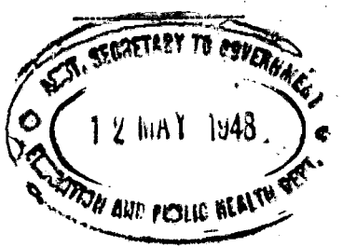
ROC. No. 1175 K2/47 dated 9th May 1948.

Sir,



SUB: Government College, Mangalore - Opening of B.A. and B.Com. Courses - Report of the University Inspection Commission.

REF: This Office letter Rc.1175K2/47 dated 20-9-47.

34976

I have the honour to state that the University Inspection Commission which visited the Government College, Mangalore, for the purpose of granting affiliation in the B.A. and B.Com courses have recommended certain modifications to the staff proposed to be employed in 1948-49 and 1949-50.

	1948-49	1949-50.
1. English.	1. Lecturer & 1 Tutor.	1 Asst. Lecturer.
2. Economics & History.	1 Lecturer in Economics.	1 Asst. Lecturer in Economics.
	1 Asst Lecturer in History	
3. B.Com.	Hons. graduate to handle Economics classes in bot B.Com. & B.A. classes. Graduate in Commerce. Graduate G.D.A. or R.A. Part-time Lecturer in Mercantile Law.	

2) English - There are at present one Assistant Lecturer and a Tutor. The Commission state that there should be 2 members on the staff in 1948-49 for the lecturing work in the 2 Intermediate and the Junior B.A. classes. In addition there will be a large number of composition exercises for valuation and it will not be possible for the existing tutor to undertake this work. There is therefore a need to employ an additional Tutor in 1948-49 itself and this may be agreed to.

3) Economics and History - The commission has recommended 3 members, 2 in the first year and the other in the second year. In the proposal submitted with my letter referred to above, only an Asst. Lecturer was recommended for 1948-49 as it was considered that the present Principal would become the Senior Lecturer and Head of the Department in the subject. It is now found that he is not competent to teach History and it is therefore necessary to appoint a Lecturer in 1948-49. I request that the recommendation of the Commission may be accepted.

P.T.O.

4) B.Com. In their report the Commission state that the entire staff will have to be appointed in 1948-49 as most of the subjects are started in the Junior Class and must be handled from the first by qualified men. It is found that the Economics subject for the B.Com. students are to be taken along with the B.A. students so a Lecturer in Economics is to be appointed for the Gr.IV (b) course, there is no necessity for having another Lecturer in Economics. Excepting the Hons. graduate the other 3 may be sanctioned in 1948-49.

5) The Commission has also suggested a Tutor in Mathematics in 1949-50. This question may be considered early next year with reference to the number of students and hours of work of the Mathematics department. I may point out that no post of Tutor in Mathematics has been sanctioned either to the Government College, Coimbatore. or the Government Brennen College, Tellicherry when the course was opened in these colleges. There is no change in the staff recommended for the languages.

6) Equipment - A provision of Rs.3000/- for the purchase of books and periodicals has been made in t e proposals. The commission state that this will be inadequate as initial expenditure for the ~~library~~ library and recommend a sum of Rs.8500/- (Rs.5000 in 1948 - 49 and 3500/- in 1949-50) with a recurring expenditure of Rs.1000/- from 1950-51. Their recommendation may also be accepted.

7) The Commission is satisfied that by the removal of the High School from the present premises there will be sufficient accommodation for the new classes. As already recommended, the High School department may be abolished. There will be no difficulty in absorbing these pupils in other schools in the locality. In regard to the Training section and the model school the District Educational Officer has suggested that these classes may be shifted to the present hostel buildings where the section was formerly accommodated. The Principal agrees with the suggestion but requests that the control and management of the Training section with the model ~~section~~ School

may be transferred to the District Educational Officer. I recommend that the request of the Principal may be complied with. The transfer of the training section to the Hostel buildings, will necessitate the renting of private buildings for accommodating the College Hostel from the next academic year. I am asking the Principal to take action in the matter of securing a suitable building.

I have the honour to enclose a statement showing (1) the staff originally proposed by me in connection with the opening of B.A. & B.Com. courses (2) the staff as stipulated by the University and (3) the cost of additional staff in 1948-49, 1949-50 as well as ultimate. It may be pointed that the recommendations of the University have been further revised since the proposals were submitted in my letter Roc.1175 K2/47 and 9-5-48. I enclose for the information of Government a copy of letter A.2063 dated 20-5-1948 from the Registrar together with the enclosure referred to therein. I request that Government may accept the final recommendation-except in regard to the English staff-where it will be sufficient if there is one Lecturer in English of the University and sanction the opening of the B.A. and B.Com Courses.

2. As the opening of these courses is [illegible] the removal of the High School and Training Section with the model school classes and as the schools in the locality will be re-opening early in June, I am asking the Principal not to make admissions into Form IV to VI of the High School and issue Transfer certificates to the pupils so that they can apply to other schools. I am also asking the District Educational Officer, South Kanara to see that the pupils of the school are absorbed in other High Schools. In regard to the Training section with the model school, I am asking the Principal to transfer them to the Hostel building.

From

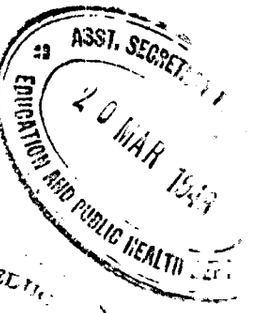
The Citizens of Mangalore.



To

The Hon'ble Minister for Education,

21763 Fort St. George, M A D R A S.

Sir,

We beg to place before you the following representation for your kind consideration and favourable orders.

It has been announced in the papers that the local Government Second Grade College is to be raised to be a First Grade College from the next academic year. In this connection it is learnt that, in consequence, the Model School and Training School Sections now attached to the said College are to be transferred to the local Higher Elementary Training School and that the High School Section is to be abolished altogether.

We beg to bring to your kind notice that the High School was started in 1868 out of the endowments from the public to the extent of Rs.60,000 and we feel that there is a dire need of continuing it as it is the only non-denominational School in this large town, even in this district. Further this is the only High School which caters to the educational needs of a large number of pupils residing on the southern and eastern sides of the town.

Perhaps the abolition of the High School was considered necessary to provide accommodation for the degree classes to be newly opened. In this connection we point out that the existing accommodation in the present buildings will be sufficient for the new classes even if the sections proposed to be removed are retained. The present masters' room with its extension and the High School and the Model School buildings can accommodate the High School and Training and Model Sections. The four rooms thus made available in the main College block by the transfer of a few of the classes belonging to the High School and Training Sections will be sufficient for accommodating the classes to be newly opened. In addition, there is a big hall already vacant in the main College building consequent on the transfer of the Junior Intermediate English Classes to the Academy Hall. Since it is proposed to open the degree course only in Economics, Mathematics and B.Com., th

rear rooms thus made vailable will in our opinion be sufficient for the purpose. If however the accommodation is still found inadequate, we suggest that the old building now occupied by the College Hostel may be utilised for housing the Model Section.

There is also a rumour that the Government Hospital in the adjacent compound is likely to be shifted to some other place in the near future. If that is so, a few of the smaller blocks of the Hospital adjacent to the College compound may then be placed at the disposal of ~~the~~ this Insitution. If this course also is not feasible, we request that while temporary arrangements may be made to accommodate these Sections i-n the present buildings as suggested above, construction of a new building to afford additional space required may kindly be undertaken in a year or two.

Perhaps it is also considered that the proposed removal of the Sections is necessary according to University requirements, namely that the Collegee Department should be separate from other sections. In this connection, we suggest that it is possible to separate the College Department from the other Sections by erecting a compound wall between t.he two ~~xxxx~~ blocks and placing those Sections under the control of the local D.E.O.

These arrangements will, in our opinion, meet the requirements of the University and the Government and also satisfy the desire of the public of this town.

We beg to remain,
Sir,
Your most obedient servants,

Mangalore,
23rd February 1948.

ASST. SECRETARY TO GOVERNMENT 26 JUN 1948 EDUCATION AND PUBLIC HEALTH DEPT.

In resubmitting herewith the Government Endorsement referred to above, I have the honour to state as follows:-

46981

In connection with the proposal for raising the Government College, Mangalore, to the First Grade, the University Commission visited the place and found that the removal of the High School classes from the college would release the accommodation necessary for opening the B.A. and B.Com Courses immediately. Under the existing conditions it will not be possible to open new courses in the college without closing the High School Department. The abolition of the High School Department can not be reasonably considered a hardship to the public. There is no dearth of facilities for Secondary Education in the locality. There are three high schools in the vicinity with the following strength in the higher forms:

	V Form.	V. Form.	VI Form
1. Milagres High School.	68	55	91
2. Ganapathy High School	91	88	89
3. Rosario High School	38	35	...

In the last School Sixth Form will be opened in 1948--49. The High School classes attached to the Government College were working only in one section each with a strength of 45 in Form IV, 32 in Form V and 31 in Form VI. The pupils of the high school department of the college can be -- easily absorbed in the other high schools mentioned above. The District Educational Officer reports that the management of the Rosario High School is prepared to open additional sections in each of Forms IV to VI, if necessary.

Considering the existence of adequate provision for Secondary Education, in the locality it seems unnecessary to continue the High School Department in the college - after it is raised to the First Grade.

The citizens of Mangalore, in their memorandum at pp 1-3 ante, object to the proposal to abolish the High School Sections in the Govt College, Mangalore when it is raised to first grade. In G.O No 1597 Edn S 24.6.48, the High School Sections have already been abolished. The D.P.I considers that the continuance of the High School class will be unnecessary. No action seems necessary. South Kanara has a large number of High Schools. The question of opening B.A. and B.Sc. classes in the Government College, Mangalore, does not seem to have been given the consideration it deserves. Even this year quite a number of students could not get admissi in the B.A. and B.Sc. classes in the St. Aloysius

At the instance of H.M.(P.H) H.M.(Edn) the D.P.I. was asked to submit proposals for raising the Govt. College Mangalore to I grade as a Part II scheme for 1948-9. It is proposed to open the Mathematics group, the Economics and History group and the B.Com course. Forty students are expected to be admitted into each of these courses. It is proposed to abolish the High school attached to the College and transfer the Secondary Training Section to the Govt. Training School, Mangalore. The approximate ultimate fee income is estimated to be Rs 44,100 and the ultimate saving on account of abolition of High School Rs 23,784. The proposal will

5k

result in an ultimate saving to the Govt. as shown in the statement above.

2/ The proposals were turned down several times in the past mainly for the reason that the Govt. were ~~gunx~~ generally against increasing their commitments on Arts Colleges.

The proposal does not seem to satisfy the criteria laid down in G.O.577 Finance dated 1-8-47 for Part II schemes. However, in view of the fact that the proposal will result in an ultimate saving to the Govt., it may be accepted.

The D.P.I has however stated that the closure of the Govt. High School will not cause any inconvenience to the students as there are other High Schools in Mangalore where they can secure admission.

It may be mentioned here that it

will not be possible to find accommodation for the proposed ~~B.A. and~~ B.Com classes unless the High School is abolished.

If the D.P.S is to be converted further ~~there will be~~ delay and it may not be possible to treat this as a Part II scheme for 1948-49 as Part II notes have to be sent to Govt before the 15th inst.

by the Cabinet.

The proposal was approved as Part II scheme for 1948-9 and ~~budget~~ provision included in the Budget for 1948-9. The D.P.I now reports that the University which inspected the college insisted on the employment of some more additional staff than was originally proposed by the D.P.I. in the Part II scheme. The staff approved in the Part II scheme and the staff now proposed on the recommendation of the University compare as follows:

Staff proposed in the Part II scheme.	Staff now proposed.
5 lecturers (2 to be employed from 2nd year) (*)	4 Lecturers ✓
7 Asstt.Lecturers (2 to be employed from 2 nd year)	12 Asstt.Lecturers
~~1 L.D.clerk~~	4 Tutors ✓
	4 Pandits ✓
	2 Part time lecturers.

*It was originally proposed to have 2 lecturers in English. It was recently ordered by H.M.(Edn.) that in English there should be only one Lecturer and the other Asstt. Lecturers justas in other language subjects. On this basis there will be only 4 lecturers

2. In the circumstances explained by the D.P.I., on pp. 24-25 c.f. it seems there is no option but to agree to the modified proposals insisted on by the University. The proposals of E.P.H. on pp.9-10 above may be accepted in this Deptt.

3. Financial procedure: As the extra cost on the addl. staff and other items now proposed over and above that already approved in the Part II scheme for '48-9 is Rs. ~~29000~~ 29,9[illegible] recurring and 2000 non-recurring, the case should be referred to the S.F.C. and the Cabinet before orders are issued. But as the colleges are to be opened next month, the proposal may be treated 'extremely urgent' and the orders issued in circulation to H.M.(Edn.), H.M.(Fin.) and H.Pr. The remaining procedure in such cases as indicated in Finance u.o.No. 26978(A)BG-4 dated 21-12-46 may be followed. In regard to funds the usual "New Service" procedure should also be followed.

SIR,

Sub:- BUILDINGS - Government College - Mangalore - Construction of a new block for the Natural Science Department and extending the Training section Block at a total estimated cost of Rs.1.73 lakhs proposals S U B M I T T E D.

72915

I have the honour to submit the following proposals for the construction of a new block for the Natural Science Department and for extending the Training section Block of the Government College, Mangalore at a total estimated cost of Rs.1,73,000/- for consideration in connection with Part II of the Budget Estimate for 1948-1950.

2. The necessity for the work proposed, is explained below:-

i) construction of a new block for the Natural Science Department - Estimated cost Rs.1,12,500/-

Consequent on the opening of Degree courses in the college and the increase of strength in the Intermediate class from this year, it will be necessary to provide additional accommodation by June 1949. The Natural Science Department of the College which has ~~been~~ now a strength of 72 in Class I and 45 in class II is at present held in a single room of 40' x 25', both for Lecture ~~and~~ and for practical work. Besides, the Assistant Lecturer and Two Demonstrators are accommodated in a portion of the same room, as also the library and non-consumable stock of the Department. The need for a museum, which is quite essential for the Natural Science Department is keenly felt, but there is no accommodation in the existing buildings for keeping the almirahs and show cases. Besides an animal room for keeping animals given for Practical work is also needed. Owing to the fact that the practical classes have to be conducted in 4 batches for each class, the necessity is felt for a separate lecture room and laboratory instead of a combined room as at present. It is therefore essential that an additional block (storeyed) of 150' x 50', contiguous with the present Natural Science Department should be constructed. As ~~there~~ there is no sufficient space within the college compound, it is proposed to construct the new block on the adjacent vacant site belonging to the Taluk Office. The Principal has already addressed the Collector, for transferring that portion of the Taluk Office Compound, which is now lying vacant, for the above purpose. The Principal reports that the cost of this building is estimated by the Executive Engineer at Rs.1,12,500/-

(ii) Extending the old Training section Block:- Estimated cost := Rs.45,600/-

At present the library containing 16,597/- volumes with 60 almirahs is accommodated on the galleries in the main hall of the college. This arrangement is thoroughly unsatisfactory for a library. The dimensi ns of the two galleries are 69½' x 10½' (each) and it will be observed that this space might do for mere stacking of books but not at all adequate for use as a library by students and staff. The galleries are so narrow and the almirahs are so crowded that the space between the almirahs is totally insufficient to allow the students to have the benefits of a library. Moreover, from last year it has been necessary to hold English classes of the Intermediate in the Hall itself. The presence of the students in the library on the gallery is a constant disturbance to the English class in the hall. It is therefore imperative that the library should be shifted to a convenient place where the student can make the best use of the library during the entire hours of the Coll ge and also on holidays at the same tire relieving the classes in the hall from the present frequent disturbance from the library. To provide accommodation for the library and also a suitable reading room for students, it is necessary to extend the old Training Section block towards the east as shown in the plan. The cost of this work is estimated by the Executive Engineer at Rs.45,600/-

Besides these, a sum of Rs.15,000/- may be required for providing sanitary arrangements, Water supply etc. Thus the total cost of the scheme will be as shown below:-

(i)	Construction of a new block for the Natural Sciende Department ...	1,12,500/-
(ii)	Extending the old Training Section block, for library and Reading Room	45,600/-
(iii)	Water supply, sanitary arrangements etc.	15,000/-
	TOTAL	1,73,100/-

Or Rs.1.73 Lakhs.

3. I request that Government may be pleased to accord their approval to the proposal and provide necessary funds for the same in the Budget for 1949-1950. A site plan of the College showing the proposed new block and extension, prepared by the Executive Engineer is enclosed.

Yours faithfully,

for JOINT DIRECTOR OF PUBLIC INSTRUCTION.

Govt. College, Mangalore - Construction of addl buildings &c.

Ref letter from the D.P.I. No: 766-F4/48 dt 29.9.48.

—

It is observed that the construction of the addl buildings proposed in the Director's letter cited above has been necessitated by the opening of Degree courses in the college and the increase in the strength of admissions in the Intermediate class from this year. In connection with the opening of degree courses the Director stated that the abolition of the High School attached to the college and the transfer of the secondary training section elsewhere would provide necessary accommodation for the new classes. While proposing increased admissions in the Intermediate class the Director stated that these admissions would be possible because of the immediate availability of the High School laboratory. So on neither of the occasions referred to above did the Director brought to the notice of the Govt that they would have to incur expenditure on the construction of addl buildings. The Director is requested to explain the reason for this important omission.

The Director is also requested to report whether the Collector of South Kanara

6X

has agreed to transfer to the Education dept the portion of the Taluk Office compound required for constructing the new block for the Natural Sciences dept.

The reply to this reference should reach Govt not later than the 25th instant.

Roc.No.766F4/48 dated 22/10/48

Sir,

Sub:--BUILDINGS--Government College, Mangalore--
Construction of Additional buildings.

Ref:--Govt. Memorandum No.72195-A/48-1 Edn.
dated 15-10-48.

With reference to the Memorandum quoted above, I have the honour to state, that the construction of additional buildings for the Govt. College Mangalore, proposed in my letter Roc.No.766F4/48 dated 29-9-48, was not necessitated entirely, by the opening of the degree courses in the College, and the increased admissions in the Intermediate class. The defects in accommodation pointed out in my letter referred to above, to rectify which, the construction of additional buildings has now been proposed, existed, even before the opening of the degree courses. The necessity for the additional accommodation has, of course, become all the more urgent with the opening of degree courses, and the increased admissions in the Intermediate classes. It may be possible to carry on with the existing accommodation, but as a permanent arrangement, the proposed additional buildings will be quite necessary.

2. The Principal has been asked to report urgently whether he has since heard from the Collector regarding the transfer of a portion of the Taluk Office compound to the College. A further report in this regard will be submitted to Government as soon as a reply is received from him.

Yours faithfully,

For Director of Public Instruction

Sub: College - Govt., Mangalore - construn. of addl. buildings.

From the D.P.I. No. 76674/48A-29948 22-10-48

The D.P.I. is informed that H.M. (Edn.), when he was recently in Mangalore, told the public of that place that they should come forward with ~~at least~~ an offer to contribute at least half the cost of constructing addl. buildings if required for the Govt. College there, ~~and that~~ They agreed to this suggestion. The proposal to construct addl. buildings for the College should therefore be deferred for the present and ~~recently~~ be taken up again only when the public of Mangalore come forward

When I was recently in Bangalore I have told him that they should come forward with atleast half the amount necessary to put up the further buildings if we are to go ahead. They have agreed. And as they need to persuade more we may take Rs 4 lakhs when they come forward with their share.

The same is to be sent to Pallicherry also.

Office of the
Director of Public Instruction,

From

The Director of Public Instruction,

To

The Secretary to Government,
Education and Public Health Department,
Fort St. George, Madras:

Sub: COLLEGES - Government College, Mangalore - Additional non-recurring expenditure towards the purchase of books during 1948-49.
Ref: G.O. No. 1597 Education dated 21/6/1948.

-£@£-

In the G.O. referred to above the Government, sanctioned a non-recurring expenditure of Rs.3,000/- towards the purchase of books for the library of the Government College, Mangalore during the current academic year. The Principal reports that the amount has already been spent and that the books purchased are not sufficient to meet the minimum needs of the students and staff. He requests sanction for an additional expenditure of Rs.5,000/- towards the purchase of the other necessary books or at least Rs.3,000/- for the purpose during the current academic year. I may point out in this connection that the University Commission considered an expenditure of Rs. 3,000/- on books not adequate and recommended a non-recurring expenditure of Rs, 5,000/- and Rs. 3,500/- respectively during 1948-49 and 1949-50 and a recurring expenditure of Rs.2000/- for the whole college from 1950-51. In view of the need for the purchase of suitable books for the library to cater to the needs of the students and staff, I am confining the requirement to Rs.5,000/- as recommended by the University and permitting ~~to~~ the Principal to incur an additional non-recurring expenditure of Rs.2000/- for the purpose during the current academic year. The additional expenditure in question will be met from the reserve with me.

In the circumstances explained above, I request that the Government may be pleased to approve my action.

Yours faithfully,

for Director of Public Instruction.
